Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Attorney and Examiners discussed the proposed amendment and exchanged on what claimed language should be used to further distinguish between the claimed invention and the currently applied prior art and further specify the claimed invention such as if the first query and the second query are the same or different, Examiner agreed that the newly added claim limitation "buddling the first search result and the second search result into a results package" overcomes the currently used prior art and require further search for better references in the next office action.
